AFL Cape York House

AFL Cape York House, 'the House', is a not-for-profit organisation developed for our young Australian Indigenous girls and boys to further their education, employment and training needs in a culturally appropriate, safe and secure residential environment to ensure every student has the opportunity to reach their full potential.

Our vision is to invite companies, not-for-profit organisations, sporting groups or even schools looking for a unique base camp by offering our boarding houses to be available during our Queensland School Holiday periods.

Both houses are a unique, individual experience and come with their own special offerings which can be personally tailored to suit the needs of any group style whether it be corporate or other.
